

Restaurant Grease Traps & Drains

The 921 minimizes hydrogen sulfides and build up of sludge, thereby reducing odors, fecal matters, and grease compounds. 921 dissolves gradually over 90 days (dependent upon flow rate) allowing for continuous waste treatment.

Product Description

The 921 is an improved biological product, specifically formulated and packaged for use in restaurants where the water temperatures are higher.

To assure optimal performance of these organisms, under the toughest conditions, they are produced and blended together with "high potency" nutrients and stimulants.

The 921 also contains specialty penetrants and surfactants which loosen and liquefy heavy grease deposits, thereby assisting in their biodegradation.

Grease Control in Lift Stations

The 921 is packaged specially to maximize performance in restaurant applications.

Benefits of the 921:

- Keep drain lines clean
- Reduce grease build-up headaches
- Prevent emergency blockages
- Save on line jetting
- Lower grease disposal costs
- Reduce or eliminate odors
- Last longer in hot water flow

Directions for Use

1. Remove 921 from carton.
2. Suspend with rope into area to be treated.
3. Replace 921 as needed with new product.

Precautions

Do not ingest or take internally. Avoid skin contact. Wear protective gloves and wash thoroughly after handling.

Storage

Store in cool, dry place. Avoid contact with strong acids.

SLOW RELEASE
Disperses bacterial product as it dissolves!
