

CIDE-KICK II

NONIONIC SPRAY ADJUVANT

Ingredients:

100% d'limonene and related isomers plus selected emulsifiers

Cide-Kick II is a wetting agent, sticker, activator, and penetrant all in one. Cide-Kick II is a byproduct of the forest industry, low viscosity oil. Cide-Kick II helps break down the waxy cuticle on the leaf surface and helps penetrate the bud and bark area (of the woody brush), allowing a more effective uptake of the herbicide. Cide-Kick II is compatible with most terrestrial and aquatic herbicides, insecticides, and other pesticides.

Directions For Use:

Utility rights of way and roadside foliar
High-volume ground application 1-2 quarts per 100 gallons

Low volume ground and aerial application
1 pint-2 quarts per 100 acre

Forest site preparation: High-volume ground application
1-2 quarts per 100 gallons

Low-volume ground and aerial application
1-2 quarts per acre

Aquatic-surface: High-volume ground application
1 pint-2 quarts per 100 gallons
Low volume ground and aerial application 1 pint-2 quarts per acre.

Other Applications

Low volume basal & dormant brush: Increase bark penetration.
See herbicide label for rates.
